

Dear IOC leaders,

We are pleased to announce as discussed during our group meeting in NY, the IOC USA committees to take our work forward on Membership, Finance, IT and various other initiatives and activities to expand, excel and include diversity in our work. I request all the committee chair and vice chair to be open, transparent, collaborative, cooperative and welcoming to new ideas, input and advise from others to help improve productivity and efficiency and to make sure that the job is done right with minimum conflicts and confusion. I also request them to bring new members in the committee to help in our reach and richness.

I recommend each committee to have terms of reference, objectives, activities and implementation plan with specific targets and mile stones in a week.

I look forward to working with you to help build the momentum we need to win 2019. Please feel free to share this info with others to spread the message.

Sam Pitroda
